HINTS FOR THE WARM SEASON.
THIS wonderful compound combines MEDICAL POWERS over all other preparations ever formed for the relief of those diseases for which it is recommended, such as Headache, Dizziness, Sleepiness Noises in the Head Bad Taste in the Mouth Nausea or sickness in the Stomach Loss of Appetite, Indigestion, Dyspepsia, Fever and Ague, Pain after Eating Sour Stomach, Heartburn, Jaundice Costiveness Determination of Blood to the Head Piles Coughs, Colds, pain in the side back limbs and joints, Rheumatism, all Chronic Diseases Scrofulous Humors Salt rheum, and all Cutaneous Eruptions of the Skin, General Debility &c.
The DANDELION AND TOMATO PANACEA is particularly recommended in cases of Indigestion and Dyspepsia. The following are some of its distressing symptoms: Palpitation of the heart heartburn, loss of appetite, pain after eating, languor melancholy, restlessness, &c. It will cure the worst diseases of
RHEUMATISM,
and will eradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation. The *Dandelion and Tomato Panacea* is as all must be aware from the ingredients of which it is compounded, the best as well as the safest.
Spring and Summer Medicine
now before the public. Spring and Summer are the seasons when
Jaundice Complaints
are most prevalent. The symptoms of these complaints are
Drowsiness, Dimness of Sight, &c
It has proved itself a most astonishing and effectual remedy for that worst of all maladies,
The Piles,
because it cleanses and enables the stomach to discharge into the bowels and causes a free circulation and regulates the whole system, and thereby prevents
Costiveness
In cases of Costiveness, either of recent or long standing, it has proved itself effectual after all other remedies have failed.
Scrofula, or King's Evil,
and all other eruptions of the skin are caused by the impure state of the blood and to have pure blood a medicine should be occasionally taken—The Panacea is wonderful in its effects for purifying and
Cleansing the Blood,
and is therefore a preventive for all eruptions of the skin and will eradicate
Humors
of long standing, and in fact it is requisite for the promotion of
Sound Health
from the most inhabited constitutions.
Manufactured only by JAMES KIDDER, Jr. Esq. Boston, and for sale by his appointed agents.
For sale in Bangor by G W LADD and POTTER & BROWN.

FOREIGN PERIODICALS.
REPUBLICATIONS OF
The London Quarterly Review
The Edinburgh Review,
The Foreign Quarterly Review,
The Westminster Review,
AND
Blackwood's Edinburgh Magazine
THE above Periodicals are reprinted in New York immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals —BLACKWOOD'S MAGAZINE being an exact fac simile of the Edinburgh edition.
The wide-spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character.
They embrace the views of the three great parties in England—Whig, Tory and Radical—'Blackwood' and the 'London Quarterly' are Tory, the "Edinburgh Review" Whig, and the 'Westminster, Radical. The Foreign Quarterly is purely literary being devoted principally to criticisms on foreign Continental Works.
The prices of the RE PRINTS are less than one third of those of the foreign copies and while they are equally well got up, they afford all that advantage to the American over the English reader.

N. H. DOWNS' Vegetable Balsamic Elixir.
The great Northern Remedy for CONSUMPTION.
Also for the cure of Colds, Coughs, Whooping Cough, Croup Bleeding at the Lungs, Bronchitis Catarrh, and all diseases of the Pulmonary or Bronchial Organs.
IT is now more than ten years since this incomparable remedy was given to the public, with what success the thousands of restored invalids, with the universal encomiums of a grateful people afford abundant and gratifying evidence. Indeed no medicine has ever with such UNIVERSAL SUCCESS grappled with disease. It is its own best commendation, and to be valued needs but to be known.
Its operation upon the system is marked and peculiar from that of most similar preparations.
Its *EXPECTORANT*, and most essentially aids in the expulsion from the stomach and lungs of phlegm and phlematic humors, through the process of expectoration or spitting.
It is *SUDORIFIC* and promotes a healthy perspiration thus expelling by the pores of the skin those nauseous fluids and impurities of the blood the retention of which in the system is a prolific source of suffering to the invalid.
It is slightly *CATHARTIC* and usually corrects any costiveness attendant upon Pulmonary complaints, while most similar preparations produce a contrary effect thus adding to instead of diminishing that difficulty. (See statements of Mr Meador, Mr Ross and others, in the pamphlets and sheets.)
We do not pretend that the Elixir is a specific for all the ills that flesh is heir to, but we do say and can confirm by incontestible evidence, that for CONSUMPTION it is unequalled. Hundreds by its use have been snatched from an untimely grave, and hundreds more, who delayed too long, its use have found even then that relief from suffering which they had vainly sought from every other source.
For hard and obstinate COUGHS whether produced by a mere cold, the relic of a fever or the result of a more fixed and permanent pulmonary habit, it is just the thing needful, as by its wonderful expectorant qualities it loosens the cough and enables the patient to raise with little effort what would otherwise cause hours of hard and laborious coughing. Many persons testify that after having been unable to obtain more than a slight degree of rest for weeks, they have on taking the first dose, obtained a comfortable night's rest and by continuing its use, in a short time have been restored to health.
OBSTINATE COLDS AND COUGHS it will usually cure in from two to five days.
To persons afflicted with *WHOOPING COUGH* we would especially recommend the Elixir as it relaxes the cough, and saves much of the labor of hard coughing usually attendant upon that disease.
ASTHMA. We believe it is a generally acknowledged fact, wherever the medicine is known that nothing so generally gives relief—in so great a proportion of instances effects a perfect cure in this distressing malady, as Downs' Elixir. (See certificates of Mr Carleton, Mr Perkins, and others in pamphlets)
CROUP. This dangerous malady in children may be cured by Downs Elixir. We speak confidently, having never known, among the hundreds of instances in which it has been used, one where it has failed after a fair trial.
BLEEDING AT THE LUNGS. In this dangerous and formidable disease, the success of the Elixir has been such that we feel authorized in saying no preparation has ever met with similar success. It has rarely perhaps never been known to fail where it has been early resorted to and the directions faithfully followed. (See statements of Mr Meader, Mr Walker, Mr Downs Alderman Morton and others in the sheets and pamphlets.)
In conclusion we would say, never despair—Hope on hope ever! If you still doubt of its virtues its efficacy enquire of those who have used it. Enquire of the Agents who sell it. They generally, either from experience or observation know of its merits and when they tell you of its effect—what they have seen and what they know—are entitled to your confidence.
Pamphlets and sheets may be had of agents gratis, giving a full description of the medicine, &c.

The Sugar-Coated Pills.
A NEW SARSAPARILLA PREPARATION.
To cure Diseases, Purify the Blood! To avoid them, keep it pure!
That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders proceeds directly or indirectly, from a morbid state of the system caused by
IMPURE BLOOD.
HALSEY'S SUGAR COATED MAGIC LIFE PILLS. The originator of the only true and genuine Sugar coated Pills most respectfully informs the enlightened public that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway N York.—Price 25 cents a single box 5 boxes for one dollar.
G W LADD Agent for Bangor.
Among the numerous remedies which stand reputable on the basis of an ancient name are some perhaps which have acquired so great celebrity and extensive use in so short a time as this invaluable article.—They have gained their high reputation, alone by their good works. Those who once try them always use them again. They are grateful to the stomach,—they improve the functions of secretion nutrition and circulation. They restore digestion and appetite and create a natural warmth inwardly, which glows through the whole system giving it greater vitality and animation. The experience of thousands attest to their good effects. After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system. His digestive organs perform their proper functions. his blood regains its wonted purity. the oppressive sense of weakness and pain departs and his body becomes endowed with renewed strength and vigor —while the mind resumes its original vivacity and clearness. Such are the results produced by Halsey's Sugar coated Pills the mildest yet most effectual preparation of the class in use.
In BILIOUS complaints Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results. For Sores, Boils Saltrheum, Fetter Erysipelas, Eruptions of the Skin Scrofulous complaints and many other like diseases arising from IMPURE BLOOD they have become highly celebrated. Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections*. They give *Good Blood for Bad*. Bottles of the boasted Sarsaparillas contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills. In Colds Coughs Influenza, Sore Throat Headache Giddiness &c, they are recommended with entire confidence the relief in these cases is quick and permanent. For Fever and Ague Fevers Asthma Piles Loss of Appetite Dropsy Jaundice Worms, Looseness General Debility, and many of the various other diseases to which the human system is liable they have proved an infallible remedy. Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness yet they are searching and efficient. It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference. The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues.
N B. The *coating of sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills. The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them and through the base and silly pretension to a patent are distributing them about the country deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills*. In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box and buy only of advertised agents.

NOW TO THE TESTIMONY.
PREJUDICE however deep rooted and long standing must yield to simple ungarnished statements of fact like the following—Captain Thompson is well known in this city and in many parts of this State and his statements are highly important. Read them.
BANGOR May 18 1846
I have been very severely afflicted with a distressing cough, attended with asthma. For thirty years especially during the winter season for some eight or ten years past I have expended a large amount of money in endeavoring to regain my health and have tried nearly all the preparations of the day with little or no benefit. During the fore part of last winter I was much worse than usual—very much worn down with my cough and emaciated so that I was unable to attend to business. I felt discouraged and began to conclude with my friends that my case was a hopeless one. Whilst in this situation a friend called to see me and advised me to send and purchase a bottle of Hunter's Pulmonary Balsam and a box of the Indian Dyspepsia Pills prepared by CURTIS & CO of this city saying he had made use of them in a case very similar and had been cured. I had little or no confidence in any patent medicines having tried many and found no relief and objected sending for them for some time. At the earnest solicitation of several who declared they had found relief from them I purchased a bottle of the Balsam and a box of the Pills. Very soon after I commenced using them was relieved from the distress at my lungs my cough became loose and I raised easy. Soon after my cough began to disappear and in less than a month it was perfectly well. My lungs now appear perfectly well, and have been so for months. I believe the Balsam and Pills SAVED MY LIFE. I have made use of it since for my children in cases of colds and coughs, and it has universally given them immediate relief and cured the cough. I do most cheerfully recommend it to the public, believing it the *best article in the world* for all lung complaints, asthma &c.
JOHN THOMPSON
The Balsam and Pills are sold wholesale and retail by CURTIS & PERKINS, No 4 Strickland's Block West End Kenduskeag Bridge, Bangor. Also, by D BUGBEE, and Druggists generally in this city. 3m june 29

Penobscot Bridge.

The Penobscot Bridge between this city and Brewer is rapidly approaching completion, and when completed will probably be one of the strongest bridges in the State The piers, of which there are three, are built of granite blocks well laid in water proof cement, and are fifty three feet high from the bottom of the river — This work has been done under the direction of Mr William Ross, who has had much experience in the business

The bridge is constructed upon the plan of Howe s Patent, but as the span of the arches is two hundred and ten feet each, which is some what longer than usual, it will have the addition of an arch beam, thus combining the strength of the arch beam and the truss bridge The carpenter work is under the direction of Mr Albert McNary, and is a fine specimen of good work

The length of the covered part of the bridge is six hundred and seventy three feet, the draw and abutments measuring about two hundred feet — only the frame of the covering of the bridge will be put up the present season leaving the roof, covering and sidewalks, outside of the bridge to be completed another year

The bridge will be passable in a few weeks and when completed will be quite an ornament to the city in addition to its convenience to the public

The Lost Child Found.

Ellen Carr, the little wanderer mentioned in our paper of yesterday, has been found and returned to her friends She was discovered about four miles from the city on Essex street, bare-headed and bare-footed, and taken into the house of one of the neighbors and word sent to the city Dr Watson was informed of the girl being found, soon after requesting us to call the attention of the public to the matter, but he neglected to inform us of the fact which it was his duty to have done

☞The Newburyport Herald remarks upon the effect of the late foreign news that "the general failure of the Potato harvest in France and Great Britain, the short crops of the coarser grains in Britain and Holland, and of wheat in France, together with the increased demand and advancing prices for American provisions in Great Britain, will cause much speculation on both sides the water, particularly as money is abundant both in England and the United States and though in the end the speculators may burn their fingers as they did last year, the hard cash will be realized by the farmers and the carriers of the produce "

A large and heavy steamer of 1450 tons burthen, and 315 feet long, is in the course of completion at New York, which is intended as the pioneer of a new line about to be established to run from that city to Fall River, and from thence to Boston by Railroad She is building under the direction of Capt Joseph Comstock, and and will cost, when completed, $160,000 — Another of the same size will be shortly contracted for

☞We notice a suggestion in our exchanges that the day of the annual Thanksgiving the observance of which has now become general in all the States, be appointed on the same day by the several governors The twenty seventh day of November has been appointed for Massachusetts and it is hoped that the same day be fixed upon by others in accordance with the suggestion

Very Important Despatches from Mexico—Arrival of the Steamship Princeton.

The following by Magnetic Telegraph from Baltimore appears in the New York papers:

The Southern mail just in, brings news of the arrival of the war steamer Princeton at Pensacola, from Vera Cruz, which place she left on the 6th inst with despatches from Com Connor and Mr Habersham, relating it is supposed, to the late overtures of the President to Mexico The contents of these despatches were not certainly known on board the Princeton, but it was understood that they contained the refusal of the Mexican government to receive our Minister until our forces were withdrawn from the Mexican coasts and territories The crew of the Truxton were still held prisoners at Tuspan, and well treated

Mexico was making no preparation to carry on the war Some time since a brigade was formed and equipped complete, to march against Gen Taylor, but the commander will not move from the city of Mexico

The latest accounts from the Central division of the Army at San Antonia De Brexar, under Gen Wool, are, that he intends to put in motion the advance of his d vision upon Chihuahua as early as the 15th instant He only waits for supplies from Lavaca, which are on the way — He will enter the Capitol in the month of October

The force now concentrated is rising of 3000 men Of these eight companies are regulars, four of dragoons, one of artillery, and three of the 6th infantry—all efficient and well commanded

From the Pacific.

The Journal of Commerce has Sandwich Island papers to the 1st of June, received by way of Mexico and Pensacola

Several men had been lost in a gale of wind ... the American whale ship Luminary, of Warren, R I Among them were Dr Brown, a native of Baltimore, and Geo Cummings of Edgartown

Difficulties still exist at the Society Islands between the natives and the French There have been two battles between the parties in which numbers on both sides were slain The town of Tahiti has been nearly destroyed by fire The French are confined to their military post They cannot go a musket shot from the town All French houses out of town have been destroyed The country is in the hands of the natives, and of course all provisions except salted stores in the French magazines The natives will kill all cattle and pigs, poultry, &c The poor Frenchmen will be starved or die of scurvy if this continues All is confusion

Disasters by the late Gale.

The U S brig Washington was boarded by the steamship Palmetto (at Charleston 18th inst from Philadelphia) on the 14th inst The W had lost boats, anchors carried away both masts, and thrown overboard her guns in the late gale The captain and eleven seamen were also washed overboard but the account does not state whether they were recovered or drowned The W was under jury masts when boarded by the P in lat 75 10, lon 36 40

Every mail from the South brings further accounts of disasters to vessels, with loss of life

☞The Whigs in Bridgewater recently in caucus passed the following among other resolves —

Resolved, That the recent vote on the Tariff clearly demonstrates that Liberty and Slavery cannot long exist under the same government, that one must succomb, and which *that* shall be, is yet to be determined

Resolved, That in view of the present state of the country, it is the duty of all who go to the polls to vote for such men only, as will go heart and soul, not only to stay all further encroachments but also to correct the evils already existing from slave hold ng misrule

Another Flare-up at Governor's Island.

The California Volunteers, at Governor s Island, on being marched to the guard house to receive their bounty money, previously to embarking about 25 men of company C—the first company marched up—refused to pay the prices charged for their clothing The prices were $5 for jackets, $3 for pants, and $1,50 for caps They stated that they were willing to pay a fair price for the clothing, which had been furnished them, but they would not take any more They were confined for insubordination Company A then came up, they were marched back to their quarters, and confined to their tents — The Colonel then questioned the other companies composing the regiment, and they one and all refused to take any more clothing, or pay the prices charged for that already furnished them Col Bankhead, of the army, told them that they would be compelled to embark without their pay This they expressed themselves perfectly willing to do, but they would not take such clothing as had been furnished to them

The Morals of War.

The Union declares this a very bad time to think of paying a meagre commun cation of our National Debt of forty years standing to the sufferers by French Spoliations, because of the *Mexican War!* Is not that rich? We have owed certain of our citizens a debt now amounting to $20,000,000, these forty three years, and we propose to pay it with five millions worth of Lands in the course of three or four years more That will never do, says the Union, we are so busy making Mexico pay our citizens a balance of a million or two which has been due them some five to fifteen years that we can t think of paying our debt' But Mexico has *already* paid a far larger proportion of her Spoliation debt of recent date than we propose ever to pay on ours, which has been due since 1803. No matter her debt is made the pretext for invading her soil, arresting her industry and butchering her innocent people Let duelists and gamblers call this National Honor if they will, we brand it National dishonor, depravity and infamy, which exposes us to the Divine displeasure, and the reprobation of good men The less of such Honor any Nation has the better for its People, and the whole world —N Y Tribune

Mr Attwood's Poem delivered at the late Anniversary of the Associate Alumni of the Bangor High School.

We have been trying for some time, to find room for some extracts from the poem of Mr Gilbert Attwood, of Boston, delivered before the Associate Alumni of the High School, but have been too much occupied with political and election matters to admit of our doing so until to day We pass the beautiful introduction and happy invocation to Memory, and make our extracts by a somewhat lengthy cut, showing the general scope and character of the production, and which cannot fail to be gratifying to the numerous friends of the author

'When the deep gloom of Care's oppressive eye
Throws murky shadows o er Hope s azure sky
When fancied pleasure long and eager sought,
Eludes our grasp, we find a phantom caught,
When toiling weary up the rugged way
That seems to end in Fame s eternal day,
How bitter is the pang to find the light
We hoped to bask in, turned to bitter night,
Then Hope by baffling oft,
Grows cold, and dim
Then Memory rides aloft,
And brighter seems for him
Who with a manly arm,
Has braved each fear,
Though Hope lies still in death,
Her light can cheer'
And from the ruin that false hope has wrought
We turn to pleasures that our childhood sought

Old age who by the fireside holds his place
Whose tottering mind presents a dismal waste
Whose head is silvered with few straggling locks
That still are left him and whose frame the shocks
Of winters many and of summers sad
Will still maintain the memories of the lad
Though faintly gleams life s lamp within his breast
He there, the visions of boyhood ... has prest
As faded flowers within some time worn book
He loves to raise the lid he loves the very look,
They seem to wear for his own dimming eye
He ne er can leave them, but with parting sigh,
The present seems to him a broken mass,
A heap of ruins, where a narrow pass
Leads to the days afar, long past and gone
And he an antique statue standing lone
Still holds amid the wreck his place unthrown
With his enfeebled mind he strives in vain to hold
Some passing thing that yesterday has told
Grown weary in the trial to the curly boy
That *prattles* on his *knee* his only toy,
He prates some words belonging to an age
Long gone, long passed away then growing sage
Stares vacantly upon the glowing coal
And mumbles that the world has ceased to roll
But let some ancient half forgotten name
But strike his ear, and mark the lightning flame
That breaks the languid half lack lustre eye
Which seemed almost to bid the world good bye
Like the soft breeze of summer on the Harp
Aeolus framed the chords responsive pant
And breathe such strains of dear departed days
No words can tell nor voice can sing their lays
Drawing before his eyes with rapture caught
The scenes long past, when all with pleasure fraught,
And brighten shining, brighter still they glow
'Till scarce he seems to think he dwells below
He sees bright eyes of his young school boy friends
The rosy cheek, its magic lustre lends
The buoyant steps that lightly quickly bound
And fly so swiftly scarce to touch the ground,
The laggard blood, that flows his aged vein
Leaps sparkles dances to his very brain,
He dwells not here, but in the days away,
He lives, as once he lived in sportive play
He peoples from the church yard, all the village green,
The happy spot where once they all were seen
He calls them from the depths of ocean torn
From groves of coral where their bodies borne
Whitened with bones the pavements of the sea
Or waves had washed them on the reefs lea,
Reversing Nature's laws the vista overthrown
The present, dimmed by mists of distance shown
The distant ever seems to shine more bright
When gilded with the present's brilliant light
With strengthened hand he can decypher still
The tablet of his memory of his will
No 'Old Mortality" he needs to clear the mould
That gathers round the tracings made of old
He reads the carvings he was wont to tell
Ere Time s stern hand had on his form yet fell
Days of short jackets, and of half washed faces,
When fun was studied more than books or graces,
When trooping to the play ground, all our leisure
Was passed in close pursuit of bubble pleasure,
When 'dogear'd" virgils quickly laid away,
Made room for greetings for a holiday
Days of the coursing sled the gliding skate
When pleasant jibes would cure a half crack d pate
How few our sorrows they so quickly sped,
We scarce could name them 'ere they all had fled
With what exultings rose the ascending kite
Till scarce it seemed a speck in distant sight
Still with ambitious heart to pass its rivals rise,
The boy delights to see it cleave the skies
And conquering laughs, and as it courses higher,
Taunts the unhappy owner of unfilled desire
But ah' type of ambitious man type of ambition see
The traitrous cord has broke, its motions free
Descend to Earth no more to wend their way
To court the beams of lights effulgent ray,
The table's turned and who was first is last,
And learning lessons, by experience past
Ne'er he again essays, to tempt with conscious pride
The wayward hand of fortune from his side
Just such is man,— the boy is but the spark
That ends a flame and soaring as the lark
His mind is filled with some fond cherished love,
That towers far, and soars for things above
Possession cloy's and hoping still he strives
To grasp the wonders of the distant skies
See now unraised, the blood-stained sword revealed,
And hear the clashings, on the tented field,
See sulphurous smoke its murky columns pour
And belching cannon mingling in their roar
Behold the thinning ranks that shrinking fall
Before the murderous stream—their only pall
The cold, cold sods that in their dying fear,
The clasp and pressing to their bosoms tear
With all their agony of speedy dying life
While still around them speeds the battle strife
This is the kite by some great hero flown
And this the end that many such have shown
Grown boastful of his strength his mighty sword
Drops powerless from his hand at God Almighty s word
This flame of sulphur e'en our band must own
Though slowly spreading burs s one heart alone
Beneath a tropic sun mid st tangled chapparals
A Farnham choak d with dust, cries onward for those halls
Onward for Glory, on through dust through mire,
Where Montezuma stood, to stand we now aspire,
The soldier strives and starves tis all for Glory
Nor learns he wisdom by each bloody story
Whats Glory? 'tis one half the worlds commotion
A tempest in a tea pots mimic ocean

Like travellers of a distant clime
We come to kneel before our Mecca's shrine,
To see our Patriach and upon his head
The blessings of our love and joy to shed
Oft has he borne our follies oft with pain
Has marked our wandering, and our devious way
But all forgiven now we come again
To cheer him with our presence here to day
Here are we marshall'd rank and file to scan,
From just acquired breeches to the man,
Behold the truant boys gathered once more,
To hear thy teaching's, as in days of yore
From busy marts from all the living world,
We greet again thy banner yet unfurled,
We love as we have loved, to hear thy word
And learn again the lessons we have heard,
Our little stage how changed each actor here,
Now plays a bolder part upon a wider sphere
The world is now our platform and the curtain drawn
Shows some in weeds and some in saintly lawn,
Now pause a space' let us the roll review
And answer each as we were wont to do
We'll call them off in sections don t grimace
If some are left the awkward squad to grace
Hist here they come in truth a motley crew
As ever mortal saw as ever mortal knew
A group of learned divines to lead the van
Come pressing forward—others as they can
As many sects as persons, each is right
And very sure that none but he has right,
Can wrangle and confound, with ponderous word,
The veriest sinner that his voice 'ere heard
Cut up theology as one would cut a stick
And lays down dogmas as if laying bricks;
Are quite surprised the blind world cannot see,
When light so much abounds, how can it be?

Behold a knot armed each with green baize bags
Their only charm to keep them all from rags
Brief is their stuffing, and their stuffing, briefs
They trade in sorrows, make their bread by griefs
They've finished College, where cavernous maw
Has cast them forth, as learned in the law;
And here some some with ponderous pestles armed,
Their physic (they will to it) n'eer mortal harmed,
With wondrous art, and more than magic skill,
They dose, and drug, with 'een a gilded pill,
And as we wish thy days long in the land
We pray good health to keep thee from their hand,
Were Aesculapius here his trade to drive
With such a rabble he could never thrive,
E'er first their doses or these drugs you take,
Swallow this good advice, your Will to make
And still our mirror shows a lengthen'd train
Drawn out at distance, all to name, were vain,
Merchants, Mechanics followers of the arts,
At home, abroad, we all now bear our parts
Where'er on earth, where'er beneath the pole,
The rushing waters, proud majestic roll
Wherever commerce with extended hand,
Has gained a foot hold in a foreign land
Still shall thy name be loved as here, so there,
Accept the love that all for thee may bear
And as you dwell upon the happy past,
Think that thy words of truth forever last
Know you your sons, think you in every face
One common feature finds one common place
Yes' such is now, we trust will ever be
That common feature, love of truth, and thee

Gardening in Ceylon.

I often practise taking off large branches from some kinds of trees, so as to form new ones, according to the Eastern plan, by causing water continually to drop upon matting bound round part of a branch, into which a sufficient incision has been made, and where, in a short time, a good root is formed The branch is then entirely sawed off, and being planted in the place intended for it, we have at once a handsome tree of the same kind, producing the same fruit or blossoms as that from which it was taken

A. G. BAGLEY'S CELEBRATED IMPROVED EVER-POINTED GOLD PEN.

WARRANTED

THIS Pen received the highest premium at the last Fair of the American Institute, and has been pronounced by the first Teachers of Penmanship in the country to be infinitely superior to any Gold Pen ever before introduced to the American public These Pens are indestructible except by actual violence—no ink will injure them—retain their elasticity, and the peculiar shape of the nibs, (which was first introduced by Bagley) makes it more pleasant to use, renders it less liable to damage, more easy to repair, and prevents the necessity of the great care that other articles of the kind require

Manufactory, 189 Broadway, N. York.

TO THE PUBLIC.

E. & J. MOULTON & CO. would inform those who are indebted to them, by note or account, that in consequence of having been hardly dealt with by those from whom they have, as they think, deserved better treatment, they are under the necessity of urging them to make every proper exertion to pay them what may be their due, or such part thereof as they may be able to as we have now to depend upon collections to meet some engagements of a particular honorary character—and to pay laborers whom we employ, and furnish supplies to carry on lumbering operations that cannot, in justice to ourselves or creditors, be abandoned until they are matured and the effects appropriated towards the liquidation of our indebtedness In justice to ourselves, we would say to our creditors, that our present position ought to have been avoided, that a negotiation which we commenced with two of our Boston creditors whom we induced to visit this place for the purpose of completing, if it had been acted upon in good faith by them, the evils resulting from impaired credit would have been avoided. Those individuals may find some palliating circumstances for the course of conduct pursued, as they sought advice of those whose pecuniary interest is promoted by the misfortunes of the trading community, and the information they received was not the truth,—yet they cannot say, without faltering, that they have acted a manly part, nor can they say in conscience that they have done by us as they would be done by under like circumstances.

The result of their course will prevent our doing justice to ourselves or the rest of our creditors As our credit and means, to a great extent, are placed beyond our control, having to depend for the present upon collections to meet honorary paper and carry on lumbering operations in addition—But of this they may rest assured, all of our debts will be paid in full to the utmost farthing and probably by the month of June next, unless we may make some exceptions in favor of such as treat or have treated us badly Such persons perhaps ought not to complain if we pay them in Jewish coin by making them wait until they repent We would say in conclusion to all of those to whom we may be indebted, be assured that you will all get your pay in full, as we have full faith that after making an allowance of twenty thousand dollars for bad and doubtful debts and other contingent losses, that we can pay our debts and have twenty thousand dollars or more of good property left to divide amongst ourselves Any property that we have under our control that our creditors may prefer taking for their debts in lieu of waiting for their money they can have on fair terms The most of our creditors we have already secured partially We take this public method of making this statement for the benefit of those who may be interested as we have not time to write to each one individually

BUCHAN'S HUNGARIAN BALSAM OF LIFE.

THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and efficient curative of these formidable complaints, now known to the civilized world

Three years of trial in the United States during which time it has been distributed from Maine to Florida, has only served to establish its pre-eminent merit in all parts of the country as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, cough and inflammation, that can possibly be cured

SPITTING OF BLOOD This frightful symptom of approaching Consumption is speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the incipient tubercles and restores those vital organs, the lungs to a sound and healthy condition

REMEMBER THIS Spitting of Blood always arises from a tendency to Tuberculous disease, and if not checked, at the outset, will sooner or later determine in death. A person who raises blood once will raise blood again unless a proper curative is immediately employed!

PAIN IN THE SIDE This distressing symptom of Consumption arises from inflammation of the Lungs, or the Membrane called the Pleura, or from Bronchial affection of the air passages. In either case it is a very dangerous indication of disease. It prevents full and free breathing and wears away the health and strength of the system. The cause of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr Buchan which is entirely vegetable in its ingredients, and perfectly harmless in all its qualities

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small intestines. On dissecting Consumptive patients, Tubercles are often found in all these organs particularly upon the Liver, which also becomes fatty, oily and swelled. The effect of the Hungarian Balsam in diseases of the Liver, especially in the of ulcerous nature is direct and powerful. *Simple disease of the Liver, unattended by Consumption is speedily cured by its use*

WINTER COUGH The harsh dry, hacking winter cough which *affects old people*, and invalids in a low state of health is happily affected by the *Hungarian Balsam*

It warms, moistens and stimulates the whole breathing apparatus, removes all morbid mucus, and other foul matter, purifies and enriches the blood, improves the secretive power of the Liver, Spleen, and other large glands, and the digestive organs and imparts new life to the wan and emaciated system

BRONCHITIS Bronchitis, Difficulty of Breathing, Harsh Cough, a dry expectoration, with (all other symptoms caused by an affection of the air tubes leading from the throat to the lungs, are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan*

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs and thereby to induce the worst form of Pulmonary disease. Be warned in time, ye afflicted! and employ this valuable remedy

TUBERCLES ON THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally esteemed we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect. In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers, (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs. The Cough which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage, it will continue to irritate the membrane and provoke a cough. Coughing is an attempt to throw off this matter and expectoration gives great relief. Inability to expectorate in the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant* — It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam. This painful and destructive affection which resists almost every thing else yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

CONSUMPTION! Consumption has been graphically described as a *Shrinking of one's self*. The Hungarian Balsam by its cleansing, warming, softening and animating power, produces not shrinking but *expansion!*

Before its delightful influence chills, fever, night sweats, costiveness, blueness of the nails, a hot flushed skin, an uncertain strength, emaciation and decline—disappear like the poisonous dews of night before the glorious morning sun! This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country

BE WISE TO DAY! Delay in any case of Consumptive tendency is emphatically Death under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE as well as CURATIVE. If you have any symptoms above described be advised in time

Sold in large bottles at only one dollar per bottle

Highly Important to all Invalids & friends of Invalids.

THE AFFLICTED IN DANGER! SALUTARY CAUTION. READ! READ!!

THE well established and well earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign antidote, and cure in cases of Fevers, Head Aches, Indigestion, Dyspepsia, Dysentery, Colic, Female Complaints &c &c has excited the cupidity and envy of the proprietors of other medicines, and since their admirable qualities cannot be impugned, has arrayed against them the antagonist efforts of men who seek to pass off other medicines by the reputation of Wright's Indian Vegetable Pills

Beware of all attempts to palm off any (so called) specifics by means of specious sounding and deceptive titles "SUGAR COATED PILLS" as if hardly pleasant to the palate, but it requires something more than a agreeable cater or to combat with disease. We shall not attempt to analyze the composition of the "Sugar Coated or pretended improved Indian Vegetable Pills," which have been thrown into the market and advertised extensively in the country papers—we have no desire to do an act of necessity. It is, however, our duty to assure the public emphatically, that they are not in no province an WRIGHT'S Indian Vegetable Pills and that whoever purchases them under this supposition is wilfully deceived. This caution is positively necessary since the title (nearly) the qualities set forth the composition of ingredients, &c are all those which form the distinctive and original characters of the true medicine

Remember buy none but "WRIGHT'S Indian Vegetable Pills," which are protected by a patent. These have attained an almost sacred ... (?) ... circulation, owing altogether to their own intrinsic merits. This public will pass its own judgment upon any attempt to tear the Laurel from the brow of the inventor of these medicines where it has been placed by grateful thousands who owe their continuance of the enjoyment of the blessings of health to his happy and benevolent agency

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent, Remittent Nervous Inflammatory and Putrid Fevers, Measles, Small Pox and Erysipelas, Inflammations of the Brain throat, stomach, lungs liver intestines kidneys and bladder, pains in the stomach, back and side, ... of the head of the chest, of the abdomen and of the limbs, scrofula, scurvy and syphilis cancer, general loss of appetite, sick headache, rheumatism both acute and chronic spitting of blood, diarrhoea dysentery and Cholera, syncope, apoplexy and paralysis dyspepsia, hypochondriasis, epilepsy, hooping cough Palpitation of the heart, ulcers and sores of every description, hysterics weakness of nerves and low spirits suppression and other delic ... Female Complaints

No other medicines ever discovered has grappled these horrid forms of disease with such general success. They are thus pre-eminently THE EMPLOYMENT OF NATURAL MEANS TO COUNTERACT THE EVILS OF NATURE. The bowels of the earth have not been ransacked for poisonous minerals to infect the system under the pretence of eradicating disease. The Field and the Forest alone have been searched for material to fit the healing art. From these have been collected remedies attacking the various forms of disease and expelling it by the outlets provided by the author of our Being the Lungs the Skin the Kidneys and the Bowels. Hence Wright's Indian Vegetable Pills based upon the curative ... suggested by nature, are Sudorific Diuretic Expectorant and Purgative

The ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect. The nearer we approach to nature, in our researches after truth both in science and art the more complete will be our success in both. Look at the uniform physical condition of the Indian Tribes of this continent whether exposed to the frosts and storms of the North or to the rain heat, and pestilential miasma of Southern climate. Houseless unprotected exposed to every atmospheric change every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease, while the white man who enjoys all the comforts of civilization with its attendant arts is as much inferior to the savage in physical vigor, as he is superior to him in intellectual acquisitions—How does this happen? Simply because bereft of the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bounteously provided for the solace of suffering and the mitigation and cure of disease—sowing them broadcast on every hill and valley. Let those who impiously arraign the good justice of Divine Providence, and point with a sneer to the multitude of invalids who lie groaning upon beds of sickness, turn from the false lights of man and study the secrets of nature and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one*

Disease rarely assumes one form from another, even in any one case hence the absurdity of attacking it by one uncompounded medicine. But Wright's Indian Vegetable Pills combining a remedy for every form of disease attack a successfully any combination of malady. This union of powers render these pills thoroughly cleansing in their nature and operations. They cannot fail of affording relief if taken according to directions accompanying them. They may be freely resorted to in the most desperate cases of the most desperate disorders, for they have effected remarkable and marvellous cures. They are applicable to a wide range of diseases and their use is not confined to any particular age, or to either sex. They are now triumphantly established beyond the reach of cavil and the only danger that exists is on the part of the public lest they should suffer from imitations, spurious Pills, palmed off by the help of titles similar to that of the genuine Pills. There fore we once more caution the public against purchasing any but the

GENUINE

"WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills as we before remarked operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid, in the homely but expressive phrase "a new man" whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs, producing that dry hacking cough so painful to the friends ear, or Cutaneous, showing itself upon the skin in eruptions or blotches, whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger. Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease

The *perfect safety* of the medicine is another all important quality, and one which has contributed more than any thing else to its extension and popularity

In a word, this medicine commends itself strongly to the patronage of the public, and its use bids fair to become, before long, ALMOST UNIVERSAL

Temperance! Temperance.

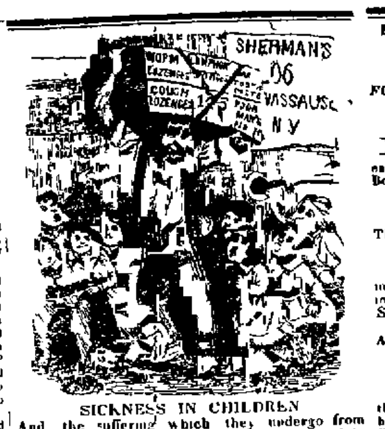

WHERE are all the teetotallers and other temperance folks, who have so long and so loudly been calling for a thorough-going TEMPERANCE HOUSE in Augusta and have complained so much and mourned so deeply, because they were under the necessity, for want of such a house, of stopping at rum taverns? Do they not know that the Gage House is, in all respects, just such an one as they want? It has been fitted up at great expense for a public house, it has excellent accommodations and is in a most delightful situation. It is now kept by Mr CHAS FREEMAN, a distinguished member of the Sons of Temperance, a very attentive and obliging Landlord who has incurred great and onerous liabilities in order to accommodate the public in this respect.—Let them see to it that he is well sustained

A very important disease over which this 'Balsam' exerts a very powerful influence, is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected

Opinion of a Regular Physician.

Exeter, Me, Sept 30, 1845

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.
